

Artist: Nelman
Title: The Searcher EP Part 3

Release Date: 24th October 2011
Release ID: CW026

Part 3 of Nelman's Searcher EPs ([click here for Part 2](#)) offers more great mixes of his emotionally inspired music. The "In Search Of Myself" collection of tracks are an expression of and born from a time of deep emotional crisis. While the "Search My Dream" collection (more versions in The Searcher EP Parts 1 & 2) are written for his wife who is a great help to him in his music creation process and also a big fan of melodic Trance. By combining In Search of Myself with Search My Dream on the same EP we see two very different emotional states represented. In Search of Myself is like being caught in a dark storm while Search My Dream is reminiscent of blue skies, soft clouds and rainbows of colour.

Search My Dream (GL Mix) ▶

This one reminds me of work by the legendary 90's Hard House / NRG producer Ian M although holds a little more Trance and a little less House! It is the acid bass twister loop that drives and holds the whole thing together, while the classic breakdown build up will certainly get the DJ reaching for the volume dial!

In Search Of Myself (She's My Desire Mix) ▶

Loving this twisted mix of "In Search Of Myself"! The big wide feel of the main synth is nicely complimented by the tight, choppy percussions and new melodic twists. The second section has a more serene feel then the other ISOM mixes and somehow manages to shake off that claustrophobic vibe.

In Search Of Myself (Useless Desire Mix) ▶

This one is tough and slamming with a heavier percussive influence and some nice experimental edges. I like the Hard House feel (although with a slower tempo) coupled with the Techno edge low end buzz. Progressive to the max this one twists from one lead to another in an ever evolving mass!

In Search Of Myself (Take Me Away Mix) ▶

Deep kicks and futuristic loops start things off while the rustic shuffling percussion contrasts nicely. As the name suggests this mix has an increased spacey feel especially when compared with some of the other darker versions. No doubt this mix would definitely work nicely in deep progressive House/Trance sets.

In Search Of Myself (You Feel My Pain Mix) ▶

This one is back to the intense darkness of Parts 1 and 2. The twisted vocals and knife edge melodic line coupled with the close quartered percussive loops almost gives this a suicidal vibe! Thankfully the experimental loops and effects do provide some distraction from the sheer darkness of it all.
