

Artist: Xilinox
Title: Luchock

Release Date: 25th February 2013
Release ID: CW064x

City Wall welcomes the mysterious Xilinox to the label for 2013. His first release with CWR is the mighty Luchock, an intriguing progressive techno number that has a backbone of steel and the mind of a genius. The absolutely slammin' original mix is followed up by no less than nine highly respectable remixes from a variety of artists. All the contributions are of an undeniably superb quality but the LiAx remix is truly alternative and really captures something deep while the Tosi remix has like a pitched down vibe with some perfectly momentous cliff hangers. Xilinox has numerous other releases under his belt on a variety of underground labels including Shout, Survival and Plastiq to name just a few. Definitely one to watch so expect more from him on CWR soon!

Luchock (Original Mix) ▶

Thumping progressive techno with Xilinox signature tonal elements and edgy vocal sample mash ups.

Luchock (De Hessejung Rework) ▶

De Hessejung really goes to work here with a fine tapestry of tonal stabs, delicate atmospheres and banging beats.

Luchock (Electrorites Remix) ▶

A driving sub bass is the ignition key in this hard edged remix by the Electrorites duo. Top percussives add salt.

Luchock (GabeeN Remix) ▶

GabeeN turns up the peak time techno temperature with a no holds barred number that screams bass.

Luchock (LiAx Darkness In My Room Remix) ▶

A dub techno gem that is a glowing jewel of a track. Dark rumbling bass with beautiful tonal riffs. Epic.

Luchock (Michael Lambart Remix) ▶

Hard edged straight down the line funky tech house that would fit nicely in any Dave Angel set.

Luchock (Nelman Remix) ▶

A monster of a distorted kick drum leads this track with a drop so mean it will shake the apples from the trees!

Luchock (Smophor Dirty Remix) ▶

Really smooth techy interpretation that has a classic "jilted" Smophor edge. Grooving!

Luchock (Tosi Remix) ▶

Love, love, love this! Unnaturally long progressions that lead to unnaturally satisfying bass drops!

Luchock (Tuomas Rantanen Remix) ▶

A strong Rantanen rethink built around complex pulsating percussive structures with sinister tonal influences.
