**Daz Furey:** Tuomas back to old tricks with techno bangers given dinosaur names. Proper grindfest.

**Michael Lambart:** Nice Stuff. Cryolophosaurus for me. thanx for the promo!

**Ben Woollard:** Quality Rantanen as always, absorbing tracks from start to finish.

**Vito Lucente:** signature Rantanen release.. Consistent with the Jurassic theme and a very nice contribution to the series. Really diggin' the time signatures and grooves used in this EP. Powerful is an understatement, but also definitely evokes a sense of emotion. This is quality techno and respectfully maintains a sense of originality. Pliensbachian, Barapasaurus, and Peleagosaurus and are my favs. Full support, thanks for this release.
